

Juan Barrera
Professor Jeffrey Seaman
Web Application Development
Assignment #3

1. See if you can resolve the connection issue with the PostGRES Database Driver (if so, show what you did in a video) else mention that you didn't get it to work.

Part 1: <https://youtu.be/aicHIFS5nHE>
Part 2: <https://youtu.be/b6AKX-aY-zE>

2. Create a connection to an existing API that you wrote locally in CMPS262 and show that it works.

3. Upload code for Module 3 for the API connection, and show an image of the results in your ReadMe for Module 3

All code will be uploaded to github, here is my github link
